

**DEPARTMENT OF GEOSCIENCES
JUNIOR PAPERS (Class of '17)
SPRING 2015-2016**

Scott M. Bechler

“Exploring the Influence of Anthropogenic Carbon on the Dissolved Inorganic Carbon Concentration of the Surface Southern Ocean”

Michael L. Bender

Katherine M. Begland

“Mixed Layer Depth Response to Changing Climate and Impact on Carbon Distribution in the Southern Ocean”

Jorge Sarmiento

Kenny M. Hulpach

“How Does Cation Substitution Affect the Raman Spectra of Carbonate Minerals?”

Thomas S. Duffy

Catherine C. Ivanovich

“Investigation of Arsenic in Maya Ceramic Vessels and its Release Under Different Geochemical Conditions Relevant to Human Consumption”

Satish Myneni

Christianese S. Kaiser

“Estimating Methane Fluxes in the Arctic”

Tullis C. Onstott

Sydney A. Mandelbaum

“The Spatial Rearrangement of Clouds and the Cloud Radiative Effect in the Tropics”

Stephan Fueglistaler

Yaakov (Mitch) Mitchell

“3D Reconstruction of Marine Precipitates: Pushing the Envelope of Earth’s Early Oxygen Levels”

Adam C. Maloof

Henry M. Ogilby

“Genetic Analysis of Marine Phytoplankton: Assemblages in the Subarctic and Sargasso Sea”

Bess B. Ward

Lauren M. Santi

“A Calcium Isotope Analysis of Shark Teeth to Constrain Past Ocean Chemistry”

John Higgins

Jana M. Suriano

“Determination of Nutrient Uptake Kinetic Parameters in Abundant Marine Diatom *Chaetoceros Curvisetus*”

Bess B. Ward

**DEPARTMENT OF GEOSCIENCES
JUNIOR PAPERS (Class of '17)
SPRING 2015-2016**

Kellie E. Swadba

“High-Pressure Investigation of Novel Phases in Alkaline Earth Fluorides”

Thomas S. Duffy

Adrian Tasistro-Hart

“Astronomically Forced Hydrology of the Late Cretaceous Sub-Tropical Potosí Basin”

Adam C. Maloof

William S. Van Cleve

“Carbon Filtration in Subglacial Calcite Deposits”

Adam C. Maloof

Vivian M. Yao

“Stable Isotopic Signatures of Symbiotic Bermudian Corals: An Analysis of Factors that Drive $\delta^{15}\text{N}$ and $\delta^{13}\text{C}$ in *Porites Astreoides* and *Diploria Labyrinthiformis*”

Daniel M. Sigman

Young (Paul) R. Yi

“A Process Study of Tidal Mixing Over Rough Topography”

Sonya A. Legg
